NOTABLE FLIGHTS, INDEED.

The Southern Cross has demonstrated that the Pacific ocean can be conquered. Built from the two Fokkers used by Capt. Wilkins in the polar regions in 1927 this three-engined ship of the air took off after ample preparation and repeated tests had demonstrated that the possibility of success was available.

The first leg of the trip, from California to Hawaii, was made in about twenty-eight hours and the distance was 2,400 miles. The next jump, most hazardous, took them 3,200 miles to Suva, in the Fiji islands, in thirtyfour and a half hours. Fianlly, came the flight to Brisbane, another 1,700 miles and the most momentous undertaking in the present history of aviation had been

crowned a success. The crew of four men, two Australians and two Americans, displayed great fortitude in undertaking the long flight. Their adventure was not rash, because they had every aid that present developments offer. Most of the time they were in the air their radio kept them in touch with ships and land stations. In every sense their

flight was epochal. No wonder Australia warms to her brave sons, and Americans delight in their triumph. A PLEA FOR BAY ST. LOUIS CHAM-BER OF COMMERCE.

Hon, E. J. Gex, chairman of community service, Bay St. Louis Rotary Club, was principal speaker at the luncheon held Wednesday. Mr. Gex is not only an engaging speaker but always has something to say, a message, as it were. He chose as his subject the Bay St. Louis Chamber of Commerce, what it has meant for the city and county, what it represents today and how much greater will its existence signify to this fastgrowing and progressive section.

He dwelt with emphasis upon the fact that certain public patronage had been withdrawn from the local organization, due to a fact not as reflection or derogatory to the cause, but to a combination of circumstance brought on by failure of certain legislation by the State this year, and, he said, unless the people of this city wanted the Chamber of Commerce to continue it would be necessary for heroic work. He pointed out that it was not only a community matter of interest, but of individual concern to every citizen, and that the time to be up and doing was now.

He further said that he felt certain the condition of the Chamber of Commerce would not be so if the fact was known to the public. However, a committee from the Rotary club to meet with the executive committee of the C. of C., was appointed, following a resolution by Henry W. Osoinach to that effect, and it is expected the bridge will be crossed either this or next week, otherwise the bridge might be burned. Vice President Jos. O. Mauffray said in an after address, following Mr. Gex, that if this bridge were allowed to be burned, he felt certain none other would be built. Well is it a case of "Help me, Cassius, or I sink."

CONTEST OF MUCH INTEREST.

News columns of The Sea Coast Echo last week carried the story of a contest that should revive the town spirit of every good citizen, and it is certain that

The Hancock County Bank has donated the sum of \$500.00 to the city of Bay St. Louis for prizes. These to be distributed into three awards; first, \$250.00; second, \$150.00; third, \$100.00.

City commissioners, including the mayor, and J. N Wisner, director of public relations, have charge of the contest, aside from a secret committee, to be composed to encourage thought and distribute Greenwood decided to clean up.

of three disinterested persons, to serve as judges. It is well understood there will be no contest unless there be a minimum of twenty-five contestants; that the time of contest will extend from June 15th to September 1st, inclusive. Prizes to be awarded to the persons who perform "the greatest amount of proportionate improvement" during period stated. Contest is open to white and colored alike, no class, caste or distinction. Applications must be filed either with J. N. Wisner. Mayor Traub or Commissioner Ladner or Commissioner Egloff.

The Sea Coast Echo wishes to put its stamp of approval on this contest which means for a better town. better homes, better yards; for a better public spirit and a morale for the people who live here like nothing else will promote. A recent advertising slogan was created, "Your home should come first." We know of no better one in this instance, for in the last analysis it means, "Your town should come first."

OUR ADVERTISING COLUMNS.

It is not frequently The Echo talks shop in its news or editorial columns. In fact, we eschew this for the fact it is distasteful. But when a newspaper like this one covers this county and city "like the dew," and part life impossible. A tilting of the farm. We wish the business people to use our columns for its value first, and secondly for its inexpensiveness. The more successful business men are those who advertise. They are, as a rule, successful because they are progrssive, alert and seeking trade.

SERVING A DOUBLY USEFUL PURPOSE.

OUTSIDERS CRITICISE THE CHURCH.

It is estimated that three out of every five Americans stay away from church. Of course, we do not be lieve this is true about the people of Bay St. Louis who are, in a general way, of a religious type.

That there is criticism of the church today is apparent. That practically all of it comes from the threefifths on the outside is practically certain. Very few people in the churches criticise them. They know what they are doing.

It is an easy matter to stand on the street corners on Sunday morning and tell the idlers what the preachers ought to do. It is quite a bigger job to get inside the church and help do it. Remember this the next time you hear some self-called free-thinker talk about the church, or religion.

A DIPLOMA IS NOT CONCLUSIVE.

John H. Welch, President Welch Dry Kiln Co., Wins Two Suits in U.S. Court.

The Welch Dry Kiln Company, of which John H. Welch, of Bay St. Louis, is president and general manager, with offices at New Orleans, has this past week won two law suits incolving very valuable patents of a system of drying lumber, patents which the Welch Dry Kiln Company owns and under which their kilns are constructed. The company was sued by the Gilchrist Forney Lumber Company, of Laurel; Henderson Dry Kiln Company, of Syracuse, jointly with the Moore Dry Kiln Company, of Jacksonville and Portland, Ore., the first case coming up in the federal court at Biloxi and the second in the court in New Orleans and both being

decided in favor of the plaintiffs. The two suits were similar in intent, alleging that the Welch Dry Kiln Company in the patents used were infringing on other patents put out by the Moore Dry Kiln Company, of Jacksonville and Portland, Ore. In both decisions the judges stated that petitive spirit.
